Our Goal:

Support members with cancer and reduce cancer risk in the fire service

Tacking Action Against Cancer learning objectives:

- Immediate actions to reduce occupational cancer risk
- How the Firefighter Cancer Support Network can help firefighters cope with cancer
- To promote a culture of safety and fitness
- The importance of the tactical athlete mindset in reducing cancer, heart disease, and injuries

Train-the-Trainer objectives:

- Find new trainers to present local/regional courses
- Gain the skills and background to teach this course

Questions: Steve Fisher Engineer/TVFR, West VP for FCSN
